Taketani, Etsuko <b. 1960 >

Note: "Etsuko Taketani's U.S. Women Writers and the Discourses of Colonialism, 1825-1861, an overdue examination of widely marginalized writings by women of the American antebellum period, presents a new model for evaluating U.S. relations and interactions with foreign countries in the colonial and postcolonial periods by examining the ways in which women writers were both proponents of colonization and subversive agents for change. In this two-part book Taketani explores attempts to inculcate imperialist values through education in the works of Lydia Maria Child, Sarah Tuttle, Catharine Beecher, and others and the results of viewing the world through these values, as reflected in the writings of Harriet Low, Emily Judson, and Sarah Hale." - Book jacket.

ISBN 0-304-35528-3
Note: "Over 305,000 Japanese soldiers fought in Burma between 1942 and 1945: 180,000 of them died. This book tells how the common soldier of the Imperial Japanese Army lived, fought and died in that terrible conflict. Here are straightforward accounts, sometimes moving, often shocking, of what it was like to fight a strange war in a strange country, far from home, short of food and weapons, confused, facing death from disease and starvation as well as enemy action."
"Sixty-two "tales", translated from the Japanese, trace the Burma campaign in chronological sequence and together offer a new perspective on a terrible war. Japanese soldiers, navy men, fighter pilots, and others were from a different culture, certainly, but they were not the devils of popular legend. Just like their enemies, they were frightened young men, fighting to the death a war they did not understand." "The Japanese are notoriously reticent about their involvement in the Second World War, and no similar volume has ever before been published, either in Japanese or English. Now, for the first time, the ordinary Japanese soldier tells his story." - Book jacket.

Subject(s): Orwell, George, 1903-1950.

Authors, English – 20th century – Biography.

Journalists – Great Britain – Biography.

Note: D. J. Taylor's moving assessment cuts through George Orwell's iconic status to reveal a man who is uncertain about his writerly gifts and far less doctrinaire than previously thought. We meet a social critic who concealed a pronounced authoritarian streak, a supporter of classless society whose first thought for his adopted son was to enrol him at Eton. Orwell's journey through the literary world of the 1930s and 1940s is characterized by the myths he built around himself. Whether as reluctant ser-
vant of the Raj in 1920s Burma, mock down-and-out in Paris and London, or courageous Spanish Civil War soldier (who when asked what he was fighting for, replied, "Common decency"), the circumstances of his life are sharply at odds with the image Orwell carefully and effectively stage-managed. As his friend Anthony Powell maintained, George Orwell was half in love with the thing he was rebelling against. "Drawing on a large body of previously unseen papers and numerous interviews with friends and others who knew him in his years of obscurity, Orwell, published for the centenary of his birth, is a human portrait of the writer too often embalmed as a secular saint: a man who combined modesty and a life of chilling detachment with warmth and gentleness, and who battled through illness to produce two twentieth-century masterpieces. – Book jacket

Contents: Messengers to king and court - Grand imperial stage and the lesser stages - 1821 edict on marionettes - Appeasing the spirits - Orchestra - Individual characters - Art of making marionettes - Sublime masters of the stage - Pagoda festival

Note: In the 18th and 19th centuries, Burmese marionettes enjoyed a rare and powerful privilege as speakers for both kings and subjects. Never merely for entertainment, puppets were a high art held in much esteem. Marionettes were means of making people aware of current events; a medium for educating the masses in literature, history and religion; a display of lifestyle and customs. These yokethei, "small dolls", enjoyed greater freedom of speech, dress and movement than live performers. They therefore played a significant role in the development of dance and dramatic arts. The author is a well known Burmese painter, and this lively book is liberally spiced with information about Burma and Burmese ways. It contains a systematic presentation of the Burmese marionette tradition, a tradition in danger of extinction.

Subject(s): Marionettes – Burma – History

Burma : Description and travel.

Note: This is the story of an eighteen-day local bus pilgrimage to sixty pagodas across Myanmar. As the author settles into her bus seat, the aisle blocked with luggage, she trains our eyes on the collection of characters that, like it or not, will be her travelling companions for the whirlwind tour. This native tourist amuses us with her adventures of eating at roadside cafes, climbing up pagodas, bathing in rivers, shopping at markets, and sleeping on temple floors. Along the journey, she encounters deeply rooted cultural values and develops camaraderie with strangers that become like family for the duration of her travels." - book jacket.

Contents: Introduction: the fall of Mandalay - 1 Kings and distant wars - 2 The Irrawaddy valley in the early nineteenth century - 3 The Court of Ava - 4 Empire and identity - 5 The grand reforms of King Mindon - 6 Revolt and the coming of British rule - 7 Reformists and royalists at the court of King Thibaw - 8 War and occupation - 9 A colonial society - Conclusion: the making of modern Burma.

Note: Burma has often been portrayed as a timeless place, a country of egalitarian Buddhist villages, ruled successively by autocratic kings, British colonialists and, most recently, a military dictatorship. The Making of Modern Burma argues instead that many aspects of Burmese society today, from the borders of the state to the social structure of the countryside to the very notion of a Burmese or Burmese identity, are largely the creations of the nineteenth century, a period of great change, away from the Ava-based polarity of early modern times, and towards the "British Burma" of the 1900s. The book provides a sophisticated and much-needed account of the period, and as such will be an important resource for policy-makers and students as a basis for understanding contemporary politics and the challenges of the modern state. It will also be read by historians interested in the British colonial expansion of the nineteenth century. - Book jacket.

Tucker, Shelby 

Note: "Shelby Tucker entered the Shan State of Burma through a border area of China closed to foreigners, crossed the Kachin Hills and left Burma via an area of India closed to foreigners. He was detained by Communist rebels, handed over to Kachin rebels and arrested by the Indian Army." "Among Insurgents is more than an adventure story. It describes the Kachins, the most important of Burma's "hidden colonies", of whom very little has been written, offers a brief and readable analysis of the Burmese Civil War, including its ethnic and religious dimensions, and examines the symbiotic relationship between the civil war and the international drugs trade. Shelby Tucker interviewed poppy farmers and leaders on both sides of the narcotics divide, and his report to the US National Security Council may have contributed to Washington's changed perception of the Burma Army as the main player in the trade." - Book jacket. – ISBN 1-86064-529-1

Tucker draws on his experience as a trial lawyer to argue that Ne Win, and not the Burma politician hanged for the crime, murdered Aung San, and that the junta is the leading player in the country's flourishing drugs trade. Media emphasis on the junta's record of human rights abuse, he suggests, tends to obscure a strategic interest in ending the trade shared by all major powers. He surveys various scholars' assessments of the prospect of the peaceful devolution of power to civilian rule and concludes by proposing measures for assisting change in Burma. - Book jacket

The guide book from death to life / by G. Alwah Tudee.
Rangoon : American Baptist Mission Pr.

Note: The Burmese Civil War began 12 weeks after Britain granted Burma independence in 1948 and has continued ever since. This book defines its core causes for readers who are new to the subject or baffled by its complexities. Tucker draws on his experience as a trial lawyer to argue that Ne Win, and not the Burma politician hanged for the crime, murdered Aung San, and that the junta is the leading player in the country's flourishing drugs trade. Media emphasis on the junta's record of human rights abuse, he suggests, tends to obscure a strategic interest in ending the trade shared by all major powers. He surveys various scholars' assessments of the prospect of the peaceful devolution of power to civilian rule and concludes by proposing measures for assisting change in Burma. - Book jacket
