Thoughts on my heart's books

MAHLEN SADHU

Over the years, I've always enjoyed reading good writing, and particularly good writing on history and culture. For some time now, I've been reading books on India, mainly because I'm pretty good at remembering who wrote what, and I've read a lot of books on India. But I also read books from other parts of the world because, well, because they're good. I've always been interested in history and culture, and I've read a lot of books on both topics. In fact, I've read a lot of books on books, because I'm interested in the ways that people think about books and the ways that books think about people.
